

Instructions: The hope is that we can brighten their day with some happy mail. I'm asking that you try and make these personal. The residents can't have visitors right now, so I'm planning on sending some pictures, drawings, and writing a message in each card I write. *In the return address please put the church's name because they are wary of random people sending letters.* The following nursing homes have confirmed that they are accepting mail and are willing to participate.

*** She wants to track the final # of letters sent! Please [email the office](#) when you send a letter!**
